

## AUTHOR INDEX

- Bach, N, 263  
 Baumert, T, 357  
 Becker, SD, 183  
 Berk, PD, 119  
 Blanckaert, N, 137  
 Bonino, F, 350  
 Boyer, JL, 308  
 Cahalane, MJ, 317  
 Carey, MC, 317  
 Cashore, WJ, 163  
 Cloninger, CR, 1  
 Crawford, JM, 105  
 Creutzfeldt, W, 254  
 Devor, EJ, 1  
 Dindzans, VJ, 247  
 Dufour, MC, 12  
 Elfrink, RPO, 168  
 Elgjo, K, 201  
 Faloon, WW, 229  
 Fausa, O, 201  
 Fevery, J, 137  
 Gautan, A, 308  
 Gollan, JL, 105  
 Graf, J, 308  
 Grant, BF, 12  
 Greenstein, AJ, 210  
 Harford, TC, 12  
 Hauser, SC, 105  
 Hoek, JB, 36  
 Hoffman, PL, 26  
 Huber, M, 357  
 Iemmo, RM, 179  
 Israel, Y, 81  
 Jacyna, M, 342  
 Jansen, PLM, 168  
 Jungermann, K, 329  
 Keppler, D, 357  
 Klein, S, 237  
 Kolmannskog, F, 201  
 LaMont, ST, 183  
 Lieber, CS, 47  
 Lightner, DA, 272  
 Lirussi, F, 179  
 Maddrey, WC, 91  
 Main, J, 342  
 Maisels, MJ, 148  
 Makowka, L, 247  
 Mazzaferro, V, 247  
 McDonagh, AF, 272  
 McLaughlin, A, 26  
 Meier, PJ, 293  
 Muraca, M, 137, 179  
 Nassuato, G, 179  
 Nealon, WH, 237  
 Neubrand, MW, 317  
 Niemelä, O, 81  
 Okolicsanyi, L, 179  
 Orlando, R, 179  
 Orrego, H, 81  
 Quigley, EMM, 218  
 Reich, T, 1  
 Riely, CA, 191  
 Rizzetto, M, 350  
 Rubin, E, 36  
 Sachar, DB, 210  
 Schaffner, F, 263  
 Schaffritz, DA, 285  
 Schrupf, E, 201  
 Sorrell, MF, 69  
 Sorrentino, D, 119  
 Stöckman, F, 254  
 Tabakoff, B, 26  
 Taraschi, TF, 36  
 Thomas, HC, 342  
 Tuma, DJ, 69  
 VanThiel, DH, 247  
 Verme, G, 350  
 Waters, J, 342  
 Zetterman, RK, 218

## CUMULATIVE TABLE OF CONTENTS

## Number 1

**Alcohol, Alcoholism, and Alcoholic Liver Disease: Genetic, Biochemical, and Clinical Aspects**  
 Marcus A. Rothschild, and Murray Oratz, Guest Editors

- Genetics of Alcoholism and Related End-Organ Damage**, Eric J. Devor, Theodore Reich, and C. Robert Cloninger, 1  
**Epidemiology of Alcoholic Liver Disease**, Bridget F. Grant, Mary C. Dufour, and Thomas C. Harford, 12  
**Is Ethanol a Discriminating Substance?**, Boris Tabakoff, Paula L. Hoffman, and Alan McLaughlin, 26  
**Functional Implications of the Interaction of Ethanol with Biologic Membranes: Actions of Ethanol on Hormonal Signal Transduction Systems**, Jan B. Hoek, Theodore F. Taraschi, and Emanuel Rubin, 36  
**Metabolic Effects of Ethanol and Its Interaction with Other Drugs, Hepatotoxic Agents, Vitamins, and Carcinogens: A 1988 Update**, Charles S. Lieber, 47  
**Effects of Ethanol on Protein Trafficking in the Liver**, Dean J. Tuma, and Michael F. Sorrell, 69  
**Immune Responses to Alcohol Metabolites: Pathogenic and Diagnostic Implications**, Yedy Israel, Hector Orrego, and Onni Niemelä, 81  
**Alcoholic Hepatitis: Clinicopathologic Features and Therapy**, Willis C. Maddrey, 91

## Number 2

**Pathobiology of Bilirubin and Jaundice**  
 John L. Gollan, Guest Editor

- Formation, Hepatic Metabolism, and Transport of Bile Pigments: A Status Report**, James M. Crawford, Stephen C. Hauser, and John L. Gollan, 105  
**Mechanistic Aspects of Hepatic Bilirubin Uptake**, Dario Sorrentino, and Paul D. Berk, 119  
**Analytic Aspects and Clinical Interpretation of Serum Bilirubins**, Maurizio Muraca, Johan Fevery, and Norbert Blanckaert, 137

- Neonatal Jaundice**, M. Jeffrey Maisels, 148  
**Kernicterus and Bilirubin Encephalopathy**, William J. Cashore, 163  
**Hereditary Hyperbilirubinemias: A Molecular and Mechanistic Approach**, Peter L. M. Jansen, and Ronald P. J. Oude Elferink, 168  
**Epidemiology of Unconjugated Hyperbilirubinemia: Revisited**, Lajos Okolicsanyi, Gino Nassuato, Maurizio Muraca, Rocco Orlando, Rosa Maria Iemmo, Flavio Lirussi, and Mario Strazzabosco, 179  
**Postoperative Jaundice**, Scott D. Becker, and J. Thomas LaMont, 183  
**Case Studies in Jaundice of Pregnancy**, Caroline A. Riely, 191

## Number 3

**Hepatobiliary Complications of Gastrointestinal Disease**  
 David B. Sachar, Guest Editor

- Hepatobiliary Complications of Inflammatory Bowel Disease**, Erik Schrupf, Olav Fausa, Kjell Elgjo, and Finn Kolmannskog, 201  
**Pyogenic and Amebic Abscesses of the Liver**, Adrian J. Greenstein, and David B. Sachar, 210  
**Hepatobiliary Complications of Malabsorption and Malnutrition**, Eamonn M. M. Quigley, and Rowen K. Zetterman, 218  
**Hepatobiliary Effects of Obesity and Weight-Reducing Surgery**, William W. Faloon, 229  
**Hepatobiliary Abnormalities Associated with Total Parenteral Nutrition**, Samuel Klein, and William H. Nealon, 237  
**Approach to Hepatic Metastases from Colorectal Adenocarcinoma**, Vincenzo Mazzaferro, Vincents J. Dindzans, Leonard Makowka, and David H. Van Thiel, 247  
**Approach to Hepatic Involvement by Endocrine Tumors of the Gastrointestinal Tract**, Fritz Stöckmann, and Werner Creutzfeldt, 254

**Gastrointestinal Syndromes in Primary Biliary Cirrhosis,** Fenton Schaffner, and Nancy Bach, 263

**Pathobiology of Bilirubin and Jaundice (Part 2),** John L. Gollan

**Phototherapy and the Photobiology of Bilirubin,** Antony F. McDonagh, and David A. Lightner, 272

#### Number 4

**Applied Basic Science in Hepatology: A Tribute to Hans Popper**

Paul D. Berk, Guest Editor

**Transcriptional and Post-Transcriptional Control of Liver Gene Expression During Various Physiologic and Pathophysiologic States,** David A. Schafritz, 285

**Transport Polarity of Hepatocytes,** Peter J. Meier, 293

**Mechanisms of Bile Secretion: Insights from the Isolated Rat Hepatocyte Couplet,** J. L. Boyer, A. Gautam, and J. Graf, 308

**Physical-Chemical Pathogenesis of Pigment Gallstones,** Michael J. Cahalane, Michael W. Neubrand, and Martin C. Carey, 317

**Metabolic Zonation of Liver Parenchyma,** Kurt Jungermann, 329

**Virus-Host Interaction in Chronic Hepatitis B Virus Infection,** Howard C. Thomas, Meron Jacyna, Jenny Waters, and Janice Main, 342

**Hepatitis Delta Virus Infection of the Liver: Progress in Virology, Pathobiology, and Diagnosis,** Mario Rizzetto, Ferruccio Bonino, and Giorgio Verme, 350

**Leukotrienes as Mediators in Diseases of the Liver,** Dietrich Keppler, Michael Huber, and Thomas Baumert, 357
